PROFESSIONAL SUMMARY

Entry-level Full Stack JavaScript Developer with 12 months of intensive training in theoretical and hands-on technical environments including developing 7 projects through all phases of Software Development Life Cycle. Effective team member who communicates closely with the team while developing a project. Latest Project was driver's diary which keeps expenses and income of truck drivers.

ACADEMIC PROJECTS (2021 - 2022)

Pet adoption:

Web application to help pets find their adopters. The application helps in a way that breeders were able to post the details of their breeds and make them available for adoption, and buyers would be able to browse and find the nearest available pet online.

Technologies: Angular, REST APIs, Routing, HTTP.

Pet medical Record:

Mobile web application to help pet owners keep medical records of their pets' vaccinations and get alerts when the vaccine is expired. The pet owners can sign up, sign in and store the information of their pets and log out. It also has a feature to ask medical questions to a vet.

Technologies: React, React Native, REST APIs, State Management, Routing, Ajax, Axios.

driver's diary:

A web application that enables truck drivers to keep their expenses and income from every load they take, does all the tedious calculations and provides drivers with their net income instantly. It generates a pdf file every 2 weeks and sends the statement to the driver for later use.

Technologies: React, REST APIs, Hooks, Routing, Ajax, Axios.

Portfolio:

My personal web page that includes a short description of myself, the courses I took, my skills and their levels, the projects I worked on with the technologies I used, a blog that I wrote about a skill I have learned through reading a documentation in Amazon web service, and my contact information.

Technologies: Angular, Cloud Deployment, State Management, HTTP.

CORE COMPETENCIES

Javascript, NodeJS, MongoDB, Angular

ADDITIONAL SKILLS

Problem Solving, Adaptability, Collaborative Teamwork, Strong Work Ethic, Respectful

PROFESSIONAL EXPERIENCE

Reasercher - Moa

Eritrea | September 2018 - February 2019

I worked as a researcher with the department of Economic Development and Research. The research focuses mainly in agricultural management such as water distribution and irrigation systems by building dams and ponds (instead of depending only on rain), agribusiness, different technologies that help farmers maintain a longer shelf life to their products and make their land more productive, food security and rural development.

Graduate Assistant - HAC

Eritrea | September 2014 - June 2018

I worked as a graduate assistant for the department of Horticultural Science in Hamelmalo Agricultural College. As a GA, I assisted professors with the field classes, taking out exam questions, grading exam papers, Advised students and arranged courses for them if they have to retake the classes. I also taught full introductory courses for two freshmen classes.

EDUCATION

Master's in Software Development

Maharishi International University | Graduation~ December 2022

Fairfield, Iowa

Full Stack JavaScript Web Development.

Bachelor' Degree

HAC | Graduation~ June 2014

Eritrea

I learned agricultural classes for flowers, fruits and vegetables with department of Horticultural Science.
