PROFESSIONAL SUMMARY

Full stack JavaScript developer with 4 years of experience. 3 years professional experience in developing web-based applications together with 1 year intensive training in theoretical and hands-on technical environments with over 7 projects through all phases of the Software Development Life Cycle. An effective team member who communicates closely with the team while developing a project. My last project was buying and selling items online, including authentication and authorization.

PROFESSIONAL EXPERIENCE

Programmer - INSA

Ethiopia | January 2016 - January 2019

Designed and Developed web applications.

- Gathering Information.
- Designing web user interfaces (UI).
- Perform all the software development life cycles.
- implement robust coding.
- Perform unit and integration testing.

I worked with database and data mining analysis. I organized a collection of structured information, to easily store data digitally.

Technologies: React, JavaScript, REST APIs, Hooks, State Management, Redux, React Redux, Routing, HTTP, Axios.

Relocating to the US - Convenience store and hospital

Dallas, Texas | February 2019 - October 2020

During this time I was transitioning and establishing myself in the US. I held a couple of temporary positions in the field of customer service (cashier and valet). With these jobs, I gained valuable knowledge and experience in the field of customer service, effective communication with a variety of people, how to run a business, working with co-workers, attention to detail, etc.

Technologies: .
