## TECHNICAL SKILLS

Java, JavaScript, TypeScript, HTML, CSS, MySQL, PostgreSQL, MongoDB, DynamoDB, Express, Mongo Client, Mongoose, NodeJS, RDBMS, Restful, REST-API, JSON, AWS, Ember, Angular.js, React.js, React Native, Bootstrap, NPM, Maven, Git Hub, Git Bash, Agile, JIRA, Mocha, Jest, Selenium, Cucumber, Postman, Swagger, Zoom, Adobe, Photoshop, Cloud, VS code, IntelliJ, Eclipse, Adobe

## PROFESSIONAL SUMMARY

I'm a JavaScript, React Full-stack developer. I have 1.5 years of experience from QA, front-end to full stack. My expertise includes designing and implementing scalable platforms, building responsive web frontends and mobile apps, supporting architectural development, improving development practices, and a deep understanding of RESTful, Rest API design, and AWS deployment automation. expertise in JavaScript, HTML, CSS MEAN, and MERN full-stack development and cloud-based applications, and am well-versed in Agile, SDLC, and CI/CD methodologies. I am passionate about creating efficient and scalable software.

## PROFESSIONAL EXPERIENCE

### Full stack Web Developer

WMC – Irlee.info

Arlington, VA

Feb 2023 – Present

- Develop high-quality front-end code using React, TypeScript, Context, and other libraries for consumption and reusability.
- Utilize Database with MySQL, PostgreSQL, MongoDB, SVG, and NodeJS to build new sites and applications with REST full APIs
- Implement maintenance, enhancements, and defect fixes for existing sites and applications, translating business requirements into technical requirements with JavaScript ES6, HTML, CSS, and the Document Object Model.
- Collaborate with the Design Team to successfully implement visual design into user-friendly, data-rich application features
- Deploy changes to production and managed staging environments, while adhering to build/deployment pipelines in Git Hub
- Possess, and adapt to changing requirements and priorities, work effectively both independently, as part of a team with business requirements, DOM manipulation, AWS cloud Lambda S3 in Agile development methodology

### JavaScript Full-Stack Developer

Relevant coursework at Maharishi International University

Fairfield, IA

Feb 2022 - Feb 2023

- Designed, developed, and deployed full-stack SPA websites using JavaScript and related technologies
- Served as a team leader for 7 major course projects, including React, Angular, Mobile, Cloud, UI Design, Rest-API, SQL, non-SQL database design, and NodeJS backend development
- Assisted and contributed to the IT community in the DMV area with a focus on 20 Mongolian students

### Quality Assurance Test Automation

CollaboraIT, Inc

Falls Church, Virginia

March 2021 - Feb 2022

- Designed and implemented automation frameworks using Java, Selenium WebDriver, JavaScript, Gerkin, Cucumber, and WebDriver
- Utilized continuous integration testing tools such as Jenkins, Maven, Git, Jira, and Swagger for API testing in Jest, Mocha
- Improved test coverage by 40% by introducing test automation, resulting in a 30% reduction in production defects
- Documented test plans, test cases, and test results, maintaining a comprehensive record of software quality assurance.

## EDUCATION

- **Master's degree JavaScript Full stack developer in Computer Science**  
Maharishi International University
- **Master's degree in divinity**  
Washington Theological Seminary

Feb 2022 - Jun 2023

Fairfield, Iowa

Aug 2017 - Jun 2020

Annandale, Virginia
